I would like to attend this retreat because...

How do you think you might use the information from this retreat in your community?

I am interested in joining with leaders from diverse communities to reflect on our roles as agents of change.

I am a grassroots leader and I and/or my organization cannot afford to pay the registration fee. I understand that this scholarship application will be reviewed; my completion of the application is not a guarantee that my request can be accommodated. I understand that the application will waive the registration fee, but I still need to pay for travel, accommodations, and meals (other than those provided).
